STRIKERS ARRESTED

Accused of Threatening to Blow Up a Boardinghouse.

CLASH WITH THE DEPUTIES

But All the Strikers Finally Are Landed in Jail at Hibbing, Minn. Armed Citizens Patrol the Streets of Eveleth.

Duluth, Aug. 6.—Twenty-three strikers were arrested at Hibbing Monday night charged with threatening to blow up an Austrian boardinghouse. There was a clash between the deputies and the men, but all were landed in jail.

Two strikers were placed under arrest at Eveleth also charged with intimidation and were lodged in jail pending their preliminary hearing.

Printed proclamations have been distributed among the strikers at Eveleth by the Western Federation of Miners, approving the proclamation of Governor Johnson and commanding obedience to its mandates.

The printed slips are addressed in bold type to the "strikers" and the proclamation is prefaced by the announcement:

"His excellency, the governor of the state of Minnesota, has issued the following proclamation, which henceforth shall govern your actions, as we expect it will rule the actions of our opponents in the industrial field."

Alarmed by reports that the strikers would take advantage of the fact that the special deputies had been released, Chief of Police Kent spent several hours delivering a personal summons to each of the 125 citizens who had been previously deputized for guard duty. The result was that when the people of Eveleth awoke Monday morning they found the streets heavily patrolled and on all of the roads leading to the mines there were lines of deputies armed with guns, just as they had been during the troublous times of last week.

IN STRIKE OF TRAINMEN.

Both Sides Now Are Claiming the Advantage.

Denver, Aug. 6.—Both sides were claiming the advantage at the end of the second day of the general strike of trainmen on the Colorado and Southern railroad. The company announced that it had over 100 applications from men to fill the positions vacated by the strikers and that they had more men than they needed to take out the passenger trains.

P. H. Morrissey, grand master of the Brotherhood of Railway Trainmen, who is in charge of the strike, says he is satisfied with the way the strike is going. He says the company is not moving any cars and that there have been no desertions from the ranks of the strikers. It is feared that if the strike is not soon settled, other roads will become involved, but no developments in that direction have occurred. One of the results of the strike is a threatened coal famine. The Denver Gas and Electric company announced that unless it could get coal within two days its electric plants would be shut down and the city would be in darkness.

SITUATION AGAIN GRAVE.

Attempts to Settle Strikes at Belfast Fail.

Belfast, Aug. 6.—The strike situation here is again grave. The efforts made to settle the carters' dispute have failed and negotiations have been broken off. The carters declare they will fight to a finish. The coal men's dispute has again broken out, involving two important firms. Police who were protecting wagons were stoned by mill workers.

Further transfers of members of the Irish constabulary have been effected.

FOR KILLING AN OFFICER

Joseph Glazebrook Placed Under Arrest in Chicago.

Chicago, Aug. 6.—On information given by Mrs. Mary Dubois the police arrested Joseph Glazebrook in connection with the murder of Police Officer Edward Smith, who was shot and killed near his home early Monday.

Glazebrook is suspected of having shot the officer in a quarrel over a woman.

No charge has been placed against Glazebrook, but he will be held to await the action of the coroner's jury.

Mansfield Is Improving.

New York, Aug. 6.—Mrs. Richard Mansfield has telegraphed from Saranac Lake to Former Judge Dittenhoefer, counsel for Richard Mansfield, stating that the rumor that Mr. Mansfield has had a serious relapse is untrue. She says that he had a bad attack of sciatica, due to the damp weather, but that he is improving.

DUE TO TREACHERY.

Raisuli Makes a Statement Regarding Capture of MacLean.

Tangier, Aug. 6.—In a long statement to the correspondent of an English newspaper Raisuli, the Moroccan bandit who is holding Caid Sir Harry MacLean a prisoner, blames the treachery of the sultan's government for his capture of Sir Harry.

Raisuli says that in the course of his negotiations with the man who is now his prisoner, previous to his capture, he explained his grievances and Sir Harry promised him safe conduct if he would go to Fez and lay his troubles before the sultan, who would remedy them. Raisuli accepted this offer but while he was arranging for the journey government troops, instigated by the sultan's bad advisers, Sidi Mohammed Gabbas, the Moroccan minister of war, and General Bagdadi, chief of the sultan's army, plundered and devastated his property at Zinat and captured some of his relatives. In the meantime Sir Harry MacLean had shown him a letter from the sultan promising him safe conduct, but he had also secured a copy of another letter written by the sultan to his minister of war instructing him to attack Raisuli vigorously unless he went to Fez. This, continues Raisuli, convinced him of the treachery of the sultan and he therefore made a prisoner of the English caid, Sir Harry. Raisuli declares that MacLean is perfectly safe in his hands. He did not capture him for money but for justice and this he hopes to secure by calling the attention of the British government to his grievances.

COLONEL SNELL'S WILL.

Causes Lively Interest in Iowa and Illinois.

Bloomington, Ill., Aug. 6.—The probating of the will of Colonel Thomas Snell is causing lively interest in Central Illinois and Northern Iowa, where he had investments and property valued at approximately \$2,000,000.

Of five children only one son, Richard Snell of Clinton, Ill., is living. Yet Colonel Snell cut off this only son entirely. In fact the entire estate is put in trust and is not to be distributed until twenty years after the death of the youngest heir. The youngest daughter of Mrs. W. V. Dinsmore of San Jose, Cal., is the youngest heir-at-law and should she live until seventy years of age, the estate will remain in trust for twenty years longer than that, or ninety years.

It is estimated that if the intentions of the testator are carried out to the letter and the estate not divided for seventy-five of a hundred years it will with its present earnings amount close to \$1,000,000,000.

The heirs-at-law will attempt to show that the eccentricity of the testator incapacitated him from making an equitable distribution of his property and they will seek to have the will set aside.

WILL ABANDON ZION CITY

Voliva Declares He Will Start a New Colony.

Chicago, Aug. 6.—Refused the granting of his petition that he be appointed by Judge Landis of the United States district court a co-receiver with John C. Hatley, now in charge of the Zion City property, and unheeded in his protests against the sale of the Zion lace industries, Overseer Wilbur Glenn Voliva, who took the place of John Alexander Dowie, asserted his defiance of the forces organized against him and declared that he would abandon Zion City to establish a colony of his own elsewhere. "I shall abandon the old hulk," declared Voliva, as he was leaving the court after his petition had been denied and the sale of the lace factory for \$389,000 had been ordered. "It is my purpose to gather my followers about me as soon as possible and leave. When I go I will take a big following along to establish a new colony."

PRINCIPALS IN THE SUIT.

Will Appear Before the Masters in the Eddy Case.

Concord, N. H., Aug. 6.—George W. Glover and his daughter, Miss Mary Baker Glover of Lead, S. D., principals in the suit for an accounting of the property of Mrs. Mary Baker G. Eddy, have arrived here in answer to summons to appear before the masters appointed to determine the question of Mrs. Eddy's competency. Mr. Glover is the son of Mrs. Eddy and Mary Baker Glover is his daughter.

SECRETARY WILSON ILL.

Contracts Severe Cold on Trip From Puget Sound to Portland.

Portland, Ore., Aug. 6.—Secretary of Agriculture Wilson, who arrived here Sunday, is ill at his hotel and declines to see anyone. Jasper Wilson, the secretary's son, said that his father contracted a severe cold on his trip from Puget Sound to Portland and that he had passed a restless night.

AGAINST A RAILROAD

Alabama Authorities May Use State Troops.

WILL ENFORCE THE LAW

Extra Session of the Legislature May Be Called to See That the Southern Railroad Company Obeys Statutes Affecting Railways.

Birmingham, Ala., Aug. 6.—No official statement has been issued on the conclusions reached at a conference between Governor Comer, Attorney General Barber and the associate counsel employed to assist in enforcing the laws affecting railroads as to the next step in the case against the Southern railway. The governor and the attorney general went to Montgomery and a lengthy session was held by the special counsel at which the legal phases of the question were gone over. It is expected that they soon will make a report to the governor.

While the governor would make no statement, his advisers let it be known that the administration is determined to enforce the state laws at any cost. They said that if necessary an extra session of the legislature would be called or troops would be ordered out to see that the state's demand is obeyed. Their view is that the Southern railway by defying the state law against the removal of a case from the state to the federal courts, thereby having its charter revoked by the secretary of state, has placed itself in a position to be dealt with as an outlaw.

It is considered probable that wholesale arrests will be made of officials and employees of the Southern who continue to operate the various lines in spite of the fact that they are doing so without a charter from the state.

Railway Attorneys Confer.

Montgomery, Ala., Aug. 6.—A conference of the Alabama attorneys of the Southern railway was held here. The serious situation that has arisen was carefully gone over in all its phases, but no public statement was made. Governor Comer has returned here from Birmingham. He declined to talk.

TEMPORARY INJUNCTION.

Granted Against the Secretary of State of Arkansas.

St. Paul, Aug. 6.—Judge Van Devanter of the United States circuit court in this city issued a temporary injunction restraining the secretary of state of Arkansas from canceling under a law enacted by the last legislature, the right of the Chicago, Rock Island and Pacific Railroad company to do business in that state.

The law in question provides that any foreign corporation which shall either bring a suit against a citizen of Arkansas in a federal court or shall remove to a federal court a suit begun against it in an Arkansas court by a citizen of that state shall forfeit all right to do business in Arkansas, and shall be liable to a penalty of \$1,000 a day for each day it shall thereafter continue to do business in the state.

The statute makes it the duty of the secretary of state to take notice of such acts and to declare the consequent forfeiture.

A citizen of Arkansas recently began a suit against the Rock Island road in an Arkansas court and the railroad company, an Iowa corporation, removed the case to the federal court on the ground of diversity of citizenship, as provided by the Constitution and laws of the United States.

The secretary of state of Arkansas took cognizance of the removal and was proceeding to enforce a forfeiture of the road's right to transact business in that state when the attorney for the road applied for the temporary injunction, which was granted.

The order will restrain the secretary of state of Arkansas from enforcing the penalties until the question of the validity of the statute is determined. The hearing will be held in the United States circuit court at Little Rock, Ark., Oct. 2.

CHARGES AGAINST THE ALTON

Preparations for Their Investigation Begun.

Chicago, Aug. 6.—Preparations for the investigation by the federal grand jury of the charges against the Chicago and Alton in connection with the granting of rebates to the Standard Oil company of Indiana have been commenced. Subpoenas will be issued for the witnesses, the first of whom will testify Aug. 14.

John D. Archbold, vice president of the Standard Oil company, made a statement in New York in which he declares that the company was not given an opportunity to be heard or to submit data in the preparation of

HOTEL EUCLID

To Our Patrons

Brainerd, Minn.

Kind Friends:

"Do you buy goods in Cleveland" was recently asked by a patron of our store when she had been informed that it was my intention to visit this market. Cleveland is peculiarly a splendid coat market for the western trade and some of the strongest firms in the business are located here. New York is the foremost market of all for two qualities of garments--the very cheapest and the extreme styles. The cheapest because of the large amount of cheap labor in the "sweat shops." The east furnishes an ample market for extreme garments. Cleveland is the home of those manufacturers who make garments of style and of the very best values to sell from \$10.00 to \$40.00. They have a much better understanding of the needs and wants of the west than any eastern house.

The time has passed when any one garment is the correct style as it was not many years ago. This year you will have the choice of several distinct styles. The "Marchionesse" or long loose coat will, I believe, be the biggest seller of all. Of course the trimmings have been changed which gives it a different effect from last year. The long tight fitting coat will be more popular than it was last season and you will find some very neat novelties in this garment with us this season. The newest garment, and one which bids fair to enjoy a wide popularity, is the "Furette." It is a short garment made of imitation furs much like the bearskins only of much more elegant materials. An excellent imitation of broad tail is shown that makes a coat which will be a strong rival of fur coats. They admit of better style and will be far less expensive and more durable. These coats are made in blouse, tight fitting and pony styles. Velour coats of the same styles are also to be worn. We have purchased liberally of these and other garments and we will show a line this year that will represent every good style.

It might be stated here that the young lady will search through many lines to find equals of what we will show for her wearing. We have secured some very "natty" garments.

Black coats will be very strong this year but a liberal amount of red, brown, blue and dark mixtures will be found in our stock.

We know that in years past we have sold many garments to those who have purchased in the cities formerly and this season we shall have such a complete line that no one can find any excuse whatever to pass "Michael's" by. We'll have more and better garments.

Sincerely,

H. Michael

Earthquake Shocks Recorded.

Albany, N. Y., Aug. 6.—The seismograph at the state museum registered earthquake shocks beginning at 1:59 o'clock Monday morning and continuing ten minutes. The record was not sufficiently well-marked to admit of any determination as to the location of the center of disturbance.

BIG FLY WHEEL BURSTS.

One Man Killed and Six Others Badly Injured.

Youngstown, O., Aug. 6.—One man was instantly killed and six others were seriously injured by the bursting of a thirty-ton fly wheel at the works of the Youngstown Iron and Steel Roofing company. The dead man is Archibald Rankin, chief engineer.

The injured are: Edward Arkwright, Felix Paglione, Joseph Pudik, Gaylord, George Matistick and an unknown Slav.

Rankin's body was cut in two by a flying fragment of the wheel, a portion being found in the rafters.

King of Spain Ill.

Berlin, Aug. 6.—King Chulalongkorn of Siam on Monday received his physicians and discussed with them his ailments, which concern his majesty's digestive organs, after which the king went out to see Berlin with General von Kessel. Emperor William will receive the Siamese king at Cassel.

FIRST HOME OF DIAMONDS.

Oldest Field for the Precious Stones Is in Central India.

In a recent report of the geological survey of India there is an interesting account of the Panna diamond fields of Central India. Historically this country is believed to be the original home of the diamond, and from them it is supposed that the famous Kohinoor was extracted some three and a half centuries ago, the earliest diamonds dating some twenty-five years previously.

Of late years India has quite retired from the field as a precious stone producer to any extent or value, but from the account given it should be worth the while of a small syndicate to take up these diamonds and work stones found compare with the yield them systematically, though it is said that neither in luster nor price do the of the South African fields.

The methods, however, now in vogue mean merely superficial treatment, following the lines which have been in vogue for centuries, with the probable result that the strata containing the most valuable deposits of stones are not reached. From a geological point of view there are said to be diamond-bearing conglomerates over several areas which would admit of deep shaft sinking and systematic mining under competent control being carried on profitably.

On the Job.

At a recent public meeting of retiring councilors in a certain ward in a country town one of the speakers was boasting that he could bring an argument to a "pint" as quick as any other man.

On hearing this, one of the audience who was acquainted with the speaker shouted out: "Aye, man, Sandy, and ye can bring a quart tae a pint a guid bit quicker."

DEVIL AS A BEAUTY.

Chicago Preachers Indorse Iowa Pastor's View of Satan.

RIDICULE TAIL AND HORNS.

Agree With Rev. S. S. Hilscher of Vinton, Ia., That Prince of Darkness Is Handsome—Bishop Fallows Doubts Whether Devil Is a Distinct Personage

The Prince of Darkness is a gentleman. —Shakespeare.

The devil wear hoofs and horns, with a trident for a tail, and shock decorous persons by his ignorance of society usage?

Well, rather not! Chicago clergymen were inclined the other day to agree with Rev. S. S. Hilscher of Vinton, Ia., who declared recently his conviction that the devil possessed a beautiful and seductive personality, says the Chicago Record-Herald.

This is expected to be a terrible blow to George Bernard Shaw when the news is cabled to London. The prince of Irish paradoxers, it is feared, will begin to believe that his critics are right when they declare that he is getting old. He won't have a shot left in his locker, his critics say. He has outlived his age.

He fancied that he had administered a stinging shock to sensitive nervous systems, they declare, when he dared to depict his "serene eminence" as a genial and rather boresome old man, who persisted in enjoying the romantic follies of youth and then prating about them endlessly to an accompaniment of Mozart's music. The author even permitted himself to chuckle audibly in the preface.

So soft and bland did he make the sketch that some of his readers thought they could recognize the original of their own London clubs. There was nothing fiery in his diction; it sounded like an after dinner discussion in the smoking room of an Atlantic liner, when everybody goes to sleep.

But even Shaw didn't go so far as to make Satan seductive.

Listen to the press dispatch describing the presentment of Satan's personality as given by Rev. Mr. Hilscher at a Waterloo (Ia.) Chautauqua:

"He pictured him as a beautiful and seductive personage, with subtle qualities which attract rather than repel.

No horns, hoofs or spiked tail is visible in the picture."

Chicago clergymen were inclined to hold the other night that the Prince of Darkness had been rather caricatured by Dore and other artists who have handled the theme. They were inclined to hold further that to depict him with a hideous outward form was to resort to obsolete methods of conveying a psychological conception.

They pointed to the fact that a spirit, as such, had no form and that there was no way it could be fitly rendered. They intimated further that if what was beautiful also was good there would have to be a lot of retouching done in the world of humans. They said that the accepted symbol is justified, however, by its great antiquity and that art must speak through symbols.

Bishop Samuel Fallows declared that the spiked tail, the hoofs and the horns are fiction, poetry, imagination.

"We owe this conception of the devil to the imagination of great poets and artists," he said. "For myself I doubt whether the devil is a distinct personage."

"The Iowa clergyman had the authority of the Scriptures for his assertion that the devil's personage may be attractive in its outward aspect. The Bible says that Satan can assume the form of an angel of light and may appear in alluring guise."

"Evil, as we know only too well in this world, may often assume a fascinating aspect."

"I consider the story of the horns and the spiked tail as absolutely nonsensical," said Rev. F. M. Devall. "I believe in a personal devil, but of course I should be wholly unable to give a description of his physical appearance. To me the devil means a 'personal power' to exert evil."

Rev. James Frothingham was disinclined to talk about the matter. He said, however, that the Bible literally read gave authority for the belief of the Iowa divine.

"The Bible says in one place that Satan appeared as an angel of light," he explained. "Personally I can think of no way in which a spirit can be rendered. There is no way of conceiving a spirit in physical terms. I see no reason why an evil spirit should be placed in a repellent physical dress, or vice versa. Of course as a fallen angel he would possess cunning, power, strength and courage. Milton has so depicted him. Of course it is easy to understand why this revolting presentment of his exterior aspect should have struck the artists as happy."

HAD WARM TIME
OVER LICENSES

City Fathers Held Rather Pointed
Discussion Over Question of
Carnival Licenses

CITY ATTORNEY GIVES OPINION

Holds That Council Never Re-
mitted Lincenses and Had no
Power to do so

The city council meeting was tame and peaceful until the question of the license of the Parker carnival came up just before the council adjourned. The warmth that pervaded the council rooms for a short time thereafter was not all due to the closeness that preceded the thunder shower. Mayor Wise sprung the question by asking what the status of the carnival was in the matter of license, stating that a merchant and heavy tax payer had stated that he should take steps to enjoin the company from showing unless they paid the license called for in the ordinance. City Attorney Polk then asked that the resolution granting the use of the streets be read. It showed no reference whatever to the matter of licenses and Alderman Farrar stated that no mention of that had been made by the committee in asking the use of the streets. The city attorney then stated that the carnival had no right to run without paying the regular city license of not less than \$50 per day, at the least, the amount being dependent on whether or not the carnival was considered as one show, or whether each show be considered separate. The council, he said, had not granted any permission to show without a license, and if it had, the permission would not have had any force. The enforcement of the law was something the council had nothing to do with. That lay entirely with the mayor and chief of police. In his opinion the carnival people had entirely ignored the city in the matter and the ordinance provided for the penalty for showing without a license. The council he said had no right or power to grant any man or men permission to violate any ordinance or permit any show to escape paying a license by making a deal with some local order.

Alderman Twohey grew indignant over what he termed the city attorney's criticism of the act of the council and said it was because of the kicks of some business men who were sore because they did not get personal benefit from the carnival. Mr. Polk retorted that there was only one question in the entire matter to him—the city ordinance being violated? It made no difference to him who or where it hit. Alderman Fogelstrom thought that those who knew the city council was doing wrong should have made the kick at the time. Mayor Wise called the attention of the council to the fact that the permission was given the Red Men by the council off hand at a special meeting without notice to anyone and he for one did not know the matter was under consideration.

Alderman Farrar finally made the remark that apparently it was nothing with which the city council had anything to do and the matter was dropped. When the city council was called to order in regular session Monday evening Alderman Zakariassen, Bouck, Fogelstrom, Baker, Graham and Twohey were present.

The reports of the chief of police, and clerk of municipal court were read. The former showed 23 arrests during July, 9 in state cases and 14 in city cases. The amount of fines collected was \$310.

The report of the fire chief was read showing four fires.

The report of the poundmaster was received and accepted.

The financial report of the city clerk was read showing receipts of \$21,969.70 and disbursements of \$5,889.04.

Alderman Drexler then came in.

There were no reports from the purchasing and street committees. The sewer committee reported that it had caused the general sewer to be repaired.

Alderman Farrar came in.

The pay rolls were allowed as follows:

City Officers.....\$263 33
Police.....319 00
Fire Dept.....149 00
Firemen attending fires.....50 25
Street employees, city work.....204 00
Street employees, crushing rock.....320 70
Street employees, 6th St. paving.....660 05
Electric light employees.....545 00

The bill of M. Goedderz, for work on the steam roller, was referred to street committee for consideration.

The liquor license of H. Theviot was granted, bond being accepted.

The question of the bicycle path ordinance was brought up but the city attorney stated that he had not looked it up but would do so.

In regard to the sidewalk on North Broadway it was ordered that all walk laid on block 198 be laid at established grade.

The street committee was given power to act on several matters as to grading streets and filling up mud holes.

On motion of Alderman Twohey the request of the chief of the fire department for compensation for sleeping at hose house, was taken from the table and on a roll call Alderman Baker and Johnson voted yes, and Aldermen Zakariassen, Drexler, Turcotte, Fogelstrom, Farrar, Graham and Johnson voted no.

The Laurel street bridge was discussed pro and con but there was no action taken, nor was there on the question of a walk to the river bridge.

The appointment of Mrs. L. M. Follett, as a member of the library board for the full term was on motion confirmed.

HAS A FINE TEAM

Con O'Brien Receives a Handsome
Pair Standard Bred Roadsters
From Faribault, Minn.

One of the finest teams seen in this city for some time is that received yesterday by Con. O'Brien, having received them in part payment for a piece of land. The gentleman of whom Mr. O'Brien purchased them held them at \$1000 and they are said by those who have seen them go, to be fine steppers and they are certainly well mated. They are bright bay mares and are five and six years old.

CARNIVAL OPENED
THIS AFTERNOON

BAND CONCERT LAST NIGHT

Carnival Band Gave Very Enjoy-
able Concert in Northern Pa-
cific Park Band Stand

Owing to the late hour yesterday at which the carnival arrived none of the shows were doing business last night. The band was on deck however, and after parading the street and rendering several selections they repaired to the band stand in the Northern Pacific Park and gave a very enjoyable concert, playing until nearly ten o'clock.

The shows, however, made good use of the time in getting ready and were in full blast this afternoon. So far as can be learned at the time of going to press they are giving good satisfaction.

The Wild Animal Circus is all that is claimed for it in advance and the educated Arabian stallion Ponies are not only the most beautiful ever seen here but are without doubt the best trained. The trained dogs, lions, bears, Pumas, etc., all come in for a big share of the applause.

The Tryolian Alps this year is far superior to the one exhibited here last year and those who saw that one will know what a rare treat is in store for them this year. This Alps is brand new, just built during the past winter and all the effects are made grander and more beautiful. It is indeed the one show that should be seen by all.

The Georgia Minstrels or Old Plantation show is exceptionally good and any who enjoy the good old negro melodies will be more than pleased with the show.

Hales Tours, Superba, Moving Picture show, Johnstown Flood, How Old is An, Katzenjamer Kastle, Ferris Wheel and the three horse abreast carry-us-all are all excellent attractions and well worthy of patronage.

Deafness Cannot be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

St. Paul Pioneer Dead.

SPECIAL TO THE DISPATCH:—
Little Falls, Minn., Aug. 5.—Mrs. Sophie H. Braun is dead here at the advanced age of 83 years. Death was due to old age, although she had suffered much from cancer. She came to St. Paul with her husband, Dr. E. S. Braun, in 1859. From St. Paul they came to Morrison county in 1868. Dr. Braun who died 37 years ago was post surgeon at Ft. Ripley during the Indian outbreak and prior to that time was a surgeon in the Civil War. The deceased leaves three daughters, Mrs. E. M. Wright, of Minneapolis, Mrs. A. M. Wright, of Montana, and Mrs. Charles Gravel, of this city.

The Limit of Life

The most eminent medical scientists are unanimous in the conclusion that the generally accepted limitation of human life is many years below the attainment possible with the advanced knowledge of which the race is now possessed. The critical period, that determines its duration, seems to be between 50 and 60; the proper care of the body during this decade cannot be too strongly urged; carelessness then being fatal to longevity. Nature's best helper after 50 is Electric Bitters, the scientific tonic medicine that revitalizes every other organ of the body. Guaranteed by H. P. Dunn & Co., druggists. 50c. ttw

NEW IRON RANGE

Otter Tail County People Think They
Have Discovered a New
Range

SPECIAL TO THE DISPATCH.

Fergus Falls, Minn.—The iron excitement in these localities is the result of the investigations of a Fergus Falls man, and the new range, if it develops as its promoters hope, is to be known as the Le Vor range.

About two years ago, a well-known resident of this city came to the conclusion that the same eruption which led to the formation of the Vermillion range in the eastern part of the state, extended westward and formed what was known in the early geographies as the "Height of Land" that although the iron vein disappears in the east, covered by a heavy drift, it in all probability would be found to reappear in certain places in the west.

From a study of maps and charts, the man became convinced that iron would eventually be found in this portion of the state, and at once began systematic efforts looking to its discovery. He secured some of the instruments used in locating the Cuyuna range, and after covering considerable territory, finally located what may prove to be a very valuable iron vein.

This vein, or range, as it may be properly called, is in the formation of two crescents, the one furthest north running through the towns of Green Valley, Wolf Lake, Spruce Grove, Evergreen and Runeberg, in Becker county, being well defined for about thirty miles.

The other crescent is wholly in Otter Tail county, and is much the larger of the two, but not so well defined, and the attraction not so strong. It runs through the towns of Corliss, Gorman, Hobart, Edna, Dora, Star Lake, Dead Lake, Rush Lake, Otta, Newton and Homestead.

The range consists to a great extent of cut-over timber lands, rough and stony, with here and there a tamarack swamp. The general opinion is that there must be a large body of ore, but that it has been covered to a considerable depth by the glacial drift, and that drilling as a consequence is going to be expensive. Having definitely located the vein, several Fergus Falls citizens became interested. Lands and options were purchased, and the reports of such purchases soon reached the iron centers. The country around Richville, Vergas, Dent and other villages has been enjoying a veritable boom, and the inhabitants are confident that they will soon have a second Vermillion.

NOTABLE FAMILY REUNION

J. W. Roberts Enjoying Visit From
Daughter he has Not Seen in
Forty-three Years

The home of J. W. Roberts, 1702 Oak street, is the scene of a very pleasant and unusual reunion. When he returned from the Union army 43 years ago, Mr. Roberts bade farewell to his daughter and other relatives in Illinois and came to the then wilds of Minnesota to establish a new home. From that day until yesterday morning he and his daughter never met, she having married and gone to Texas about 20 years ago. Mr. Roberts reared several children in Minnesota, none of whom had ever seen the older sister, now Mrs. F. A. Last, of Mart Texas. Mrs. Last, who arrived yesterday morning to visit her father and other relatives, is accompanied by her daughter, Mrs. J. H. Holden, also of Mart, and the two little boys of the latter. The family is having a most enjoyable reunion, despite the fact that so far as personal acquaintance is concerned they are all perfect strangers.

"No; it's worse than that," answered the alleged head of the house. "The boss has yielded and I've got to go to work again!"

A Jacobs Story.

A magazine editor was talking about W. W. Jacobs, the famous humorist.

"I went abroad last summer," he said, "to try and get Mr. Jacobs to write for me; but I found that he had all he could do for six or seven years to come."

"He is a quiet, modest chap. When I praised his wonderful skill in the writing of short stories, he said that it was only their surprises that made his stories take."

"Then, to illustrate what he meant, he told me a story wherein the surprises came fast and furious."

"He said that a lawyer, defending a man accused of house breaking, spoke like this:

"Your honor, I submit that my client did not break into the house at all. He found the parlor window open and merely inserted his arm and removed a few trifling articles. Now, my client's arm is not himself, and I fail to see how you can punish the whole individual for an offense committed only by one of his limbs."

"That argument," said the judge, "is very well put. Following it logically, I sentence the defendant's arm to one year's imprisonment. He can accompany it or not as he chooses."

"The defendant smiled, and with his lawyer's assistance unscrewed his cork arm, and, leaving it in the dock, walked out."

FAST SUM SENT BY RAIL.

Postoffice Department Saved Thou-
sands at Expense of the Treasury.

Some years ago the treasury department desired to transport \$25,000,000 in gold from the subtreasury in San Francisco to the subtreasury in New York. The way they did it was simple. They sent a treasury postal frank to the postmaster at San Francisco, told him to stick it on to the \$25,000,000 in gold and deliver it in New York. This that unfortunate official under the law was obliged to do. No further effort or worry on the part of the treasury department was necessary.

Incredible as it may seem, the postmaster at San Francisco carted \$25,000,000 in gold under armed guard to the Southern Pacific railway station. There it was loaded on a special train, each car of which was equipped with guards heavily armed. This train was then sent across the continent by a circuitous route and with all information concerning its route and time sedulously concealed from the newspapers in order to avoid the danger of an attack from highwaymen. After a certain number of days this train arrived at Jersey City.

The boxes containing the \$25,000,000 in gold were taken across on the ferries and New Yorkers were mystified by the extraordinary spectacle of many vehicles loaded with boxes upon which were perched guards with rifles and pistols. This procession finally ended at the subtreasury, where the postoffice department was released from the custody of the coin by the receipt of the treasury department.

The little bit of treasury transportation cost the postoffice department many thousands of dollars and cost the treasury department nothing at all.

TO EUROPE BY AIRSHIP

Bold Prediction Made by a German Scientist.

FIFTY DOLLARS PER TRIP.

Voyage Between Europe and America Will Soon Be Made in Four Days, Says German Scientist—United States Will Then Be the World's Most Envious Country.

A remarkable statement comes from Rudolph Martin, a German scientist and imperial councillor. He declares that before long we'll make the trip to Europe by airships. Martin is the leading European writer on aeronautics. He is one of the chiefs of the statistical department of the German government, so that his conclusions concerning airships are not those of a visionary dreamer, but of a hardheaded scientific man of figures, says the Brooklyn Citizen. His recent book, "Berlin to Bagdad," describing the conquest of Europe by Germany through the employment of airships, created a great sensation in military circles.

Martin's statement is as follows: "Within ten years transatlantic passages through the air will have become a regular and normal method of journeying between Europe and America. The voyages will be made in four days at a cost of \$50 for a first class ticket. This is not the dream of an enthusiast, but is a sober statement based on scientific deductions.

"Only those interested know what giant strides have been made in the past few years in airship construction. The principle of air navigation has been solved, and the world is on the point of seeing the principle put into practical operation. The Wright brothers in America, Count Zeppelin in Germany and Count de la Vaux and Lebaudy in France have all contributed to solve the initial difficulties.

"The type of airship that will be employed for traveling between Amer-

EPIDEMIC OF CRIME

Assaults on New York Women and Children Continue.

BRUTAL CRIME IS CHARGED

Italian Arrested for Attacking a Two-Year-Old Child—Another Little Girl the Victim of an Unknown Man. Mothers Are Terror-Stricken.

New York, Aug. 6.—One of the most brutal of recent crimes against women and children is charged against Lucca Fontza, who was locked up at New Brighton, Staten Island, accused of assaulting Antoinette Taluci, the two-year-old daughter of Mr. and Mrs. Pasquale Taluci of New Brighton.

Fontza and Taluci are both laborers employed at the King plaster mills in New Brighton and Fontza boarded with the Taluci. Fontza was left with the little child Monday afternoon while Mrs. Taluci went shopping. The mother had not gone far from the house when the child's screams brought her back. When he saw Mrs. Taluci, Fontza rushed from the house, Mrs. Taluci following him. Her cries brought out the neighbors and soon a mob was following the fleeing Italian down the street. The pursuers soon overtook the man and he was knocked to the ground, where he was severely beaten and kicked by men and women until a policeman appeared and with club and revolver fought off the crowd. Fontza was held in \$5,000 bail on a charge of criminal assault.

Angeline Condanti, a six-year-old child, was found terribly bruised in a thicket near the village of Lionaleumville, Staten Island, Monday afternoon. She had been attacked by an unknown man.

John Ambatro, an Italian laborer, was arrested in Brooklyn on a charge of attempted assault on two little girls, Daniel Lalo and Frank P. Body were arraigned on similar charges.

Calls for More Policemen.

Deputy Police Commissioner O'Keefe has asked the mayor and the board of estimate and appropriations for funds to employ an additional 500 policemen. The request will be acted on Wednesday.

Most of the crimes are committed in little frequented places. Mothers throughout the city are terror-stricken.

William Hoffman, nineteen years old, was arrested at his home in Port Richmond, Staten Island, on suspicion that he knows something about the death of Sophie Heckler, the servant girl who was found murdered in the home of her employers in Sixty-second street Saturday after the house had been robbed. The police say that Hoffman was paying attention to the girl.

Thomas Anderson, a laborer, aged twenty years, was arrested in Brooklyn charged with attempt to assault five-year-old Julia Slescher.

May Mace, a girl of sixteen, says that while she was standing in the doorway of her home in Seventh avenue Giuseppe Tristre, an Italian, approached her and asked her to go with him. She refused. Shortly after he returned and, it is alleged, threw his arms around her. Her screams attracted attention and soon a crowd of 500 men and women were chasing the Italian. He was overtaken and beaten unmercifully.

SHOTS DOWN HIS CHUM

Foreigner Narrowly Escapes Being Lynched at Blair, Pa.

Pittsburg, Aug. 6.—After shooting down his chum in cold blood and then attempting to chop the body to pieces with a hatchet in the street at Blair station, twenty-four miles from this city, Adam Lacach, a foreigner, was rescued from a mob that tried to lynch him and was landed in jail at Clairton. The shooting occurred in the Main street at Blair and was the result of a complaint of a misdemeanor made to the police by Joseph Warech against his friend Lacach. The latter met Warech in the street and asked him why he made the information. Before Warech could reply Lacach shot him twice.

The shots attracted a crowd and as they rushed to the scene Lacach threw away a hatchet with which he was about to strike his victim and he ran for the hills. He took refuge in a pile of brush. He was surrounded by the mob and upon a demand that he give himself up he presented himself with a revolver and threatened to shoot. The gun was knocked from his hand.

While the mob was chasing his assailant Warech was taken to the McKeesport hospital, where he died in a few minutes.

DECLARED TO BE INSANE

Man Who Shot at French President Sent to an Asylum.

Paris, Aug. 6.—Leon Maille, the naval reservist who fired two revolver shots at President Fallieres on the streets of Paris July 14, last, has been declared to be insane and has been sent to an asylum.

Shoots Sweetheart and Himself. Kingston, N. Y., Aug. 6.—Fred Upright of Ulster Heights, near Ellenville, Ulster county, shot Miss Flora Wright and then committed suicide. He was a suitor for Miss Wright's hand, but imagined he had a rival. Miss Wright will recover.

Shoots Sweetheart and Himself. Kingston, N. Y., Aug. 6.—Fred Upright of Ulster Heights, near Ellenville, Ulster county, shot Miss Flora Wright and then committed suicide. He was a suitor for Miss Wright's hand, but imagined he had a rival. Miss Wright will recover.

KILLS HER TWO CHILDREN

Insane Woman Strangles Them to Death.

Baltimore, Aug. 6.—The atrocious murder of her two babies by an insane mother thrilled Northeast Baltimore Monday. Madness, which has twice caused her to be confined in an asylum, again took possession of Mrs. Christine Nenadal, twenty-six years old, the wife of Joseph Nenadal, a woodworker. With the cunning of a damaged mind she laid her plans to put her little ones to sleep—for that is what she believes she has done.

Leaving her little daughter Mary, aged between two and three years, playing in the street, she took the younger of her children, Yaroslav, a year and three months old, to a nearby park. What happened there is not known. When the mother returned the baby was covered with leaves and small branches in its carriage and a neighbor noticed that its face was pale.

Mrs. Nenadal took both children into the house and closed the doors and windows. A little later she went for a friend, Mrs. Victoria Vala, and asked her to come and assist in dressing the children. Returning the two women entered the diningroom of the Nenadal home and there lying on the table Mrs. Vala was horrified to find the naked bodies of the two children, both of them having been strangled by their mother. The latter when the police were summoned fondled the little bodies and gave them up only when forced to do so. Her one concern now seems to be lest the children be awakened. She repeatedly asks to have them brought to her so that she may guard their slumbers.

As she sits in her cell at the police station Mrs. Nenadal is being watched lest she renew an attempt at suicide which she made some time ago, when she took her little daughter in her arms and was about to plunge into a stream when her husband restrained her.

She has twice been confined in an asylum, once having been discharged as cured and the last time having been taken from the institution by her husband against the protests of the physicians in charge.

VERY COMPLEX CRIME.

Dayton, O., Girl Murdered and Her Escort Nearly Killed.

Dayton, O., Aug. 6.—Anna Markowitz, twenty-four years of age, a pretty Jewish girl, lies dead at the county morgue, her throat bearing the mute evidences of the strangler's death clutch. Her body, bruised and cut, bears evidence of brutal mistreatment. At the hospital, with a mortal wound in his abdomen and his head a mass of bruises, lies Abraham Gordon, a young traveling man from Indianapolis. Held on suspicion by the authorities at Dayton are James, Jacob and Bertha Markowitz, brothers and sister of the dead girl.

This is the situation in a very complex murder case and one in which brutality and cruelty rival the fate of pretty Dona Gilman, whose pitiful end was reached but a very short distance from where this latest crime occurred.

Abraham Gordon, sometimes known as Cohan, went out walking along a lonely road near the National Soldiers' home. He was accompanied by Anna Markowitz and her younger sister Bertha. They had walked to a lonely spot when the crime was committed. Two stories, widely different in their intimations, are told. What took place has up to this time not been clearly developed.

Bertha claims she and her sister and Gordon were attacked by highwaymen and that Gordon was slugged and shot before she ran from the scene of the tragedy, leaving her sister and Gordon to their fate.

The Markowitz brothers admitted their mother objected to Gordon's attentions to Anna and they would not deny that they followed their sisters and Gordon into the woods.

ADMITS KILLING THE GIRL

Wisconsin Man Confesses He Committed Murder.

Millwaukee, Aug. 6.—Rudolph Fullweiler, under arrest at Wausau on the charge of murdering sixteen-year-old Jennie Reihle, has confessed. Copies of his two confessions have been received by a detective agency which has been investigating the murder. Fullweiler also appeared before Judge Marchetti at Wausau and waived preliminary examination, admitting his guilt and refusing to have witnesses testify. The Wausau authorities will endeavor to have him sentenced as soon as possible as public feeling against the man has been high. The crime was one of the most brutal ever committed in Marathon county. Jennie Reihle lived on a farm four miles from Stratford, near Wausau. On Sunday, June 30, she went to church in Wausau. It was on her way back that she was attacked by Fullweiler, who had made previous advances to her. In his signed statement, Fullweiler admits committing rape and murder, the latter being accomplished by choking the girl.

EXPLORER PEARY TALKS.

Discusses His Expedition to the North Pole.

Portland, Me., Aug. 6.—Commander Robert E. Peary has left here for New York, whence he will sail in a few days on an expedition to the North Pole. Commander Peary said: "From New York I shall go direct to Sydney, C. B., where I shall coal, and there will be no stops on the way, as I have no time to lose.

"My crew this time will be practically the same as on my last trip, Captain Robert Bartlett is to command the Roosevelt. I am going prepared to make every effort to reach the pole. If I do not succeed next summer I shall stay over a year. If I do not succeed I shall stay one year later. I am taking along everything for a three-years' trip."

Asked if he expected to reach the pole this time, Peary said:

"A man who has had my experience in the north knows that to say he will do a certain thing up there is madness. I have learned many lessons from my other trips, especially my last one, and I shall profit by all this experience. Whether I shall find the North Pole or not is a question that will not be answered until I have either reached it or failed. It will not be because I am not prepared, or do not try, if I do not succeed in attaining the object for which I am going."

Asked if he should ever try again if not successful this time, Commander Peary said:

"The newspapers have credited me with saying that I shall never make the attempt again. I do not say whether I shall or not. Future circumstances and conditions only will govern me in that."
